

Ruth Crown Pattern

To Fold:
Fold the black line away from you so after the fold you can still see the crown.
Follow each direction as they appear, folding the paper over each time.
After the last fold, roll the paper with the crown facing outwards and tape the small ends together.

To Fly
Hold the cylinder with the crown facing down and the points directed at you.
Using your pointer finger and middle finger (think of "scissors" from Rock, Paper, Scissors) hold the cylinder between these fingers.
A gentle flick of the wrist and the crown will soar, throw too hard and it will crash.
