GIZMO GO!

THE WIND-UP ROBOT

5

a lesson in
ACCEPTING DIFFERENCES

READY...

The Good Samaritan

A parable is a story that is made up to teach an important truth. Why did Jesus tell the parable of the Good Samaritan? [Read Luke 10:25-29](#)

Samaritans did not believe in the One True God like the Jews did. Why do you think Jesus chose someone so different to be the hero in His story? [Read Luke 10:30-35](#)

What question did Jesus ask at the end of the parable? [Read Luke 10:36](#)

Think of someone who is very hard for you to love—then pretend that person is the Samaritan in this story. How would you answer Jesus' question, and how does He reply? [Read Luke 10:37](#)

GizmoGO! Challenge

Tell the story of the Good Samaritan while everyone else acts it out!

PRAY

**Heavenly Father, help us to show
Your love and kindness to all
people—even those who seem very
different from us. In Jesus' name
we pray. Amen.**

SET...

Neighbors

At the beginning of the video, why were Gizmo, Rig, Widget, and Gears concerned about the wind-up robot? [Read 1 John 4:11, 18-21](#)

Why did the robots decide to accept "Mr. Gizmo" as their friend?
[Read Ephesians 3:14-15; 4:2-6](#)

Everyone uses different "love languages" to show and receive love. These include quality time, acts of service, physical touch, words of affirmation, and gifts. What does each one mean, and which is your favorite? [Read 1 Corinthians 13:4-7](#)

How did Widget reach out to the two new robots who spoke sign language? [Read 1 Corinthians 9:22-23](#)

GizmoGO! Challenge

Read and memorize our Verse to GO!
[Romans 15:7](#)

PRAY

Jesus, thanks for loving us and rescuing us from our sins. Help us be good neighbors by loving and serving others, even those who are different. Amen.

Sing along with Miss Tina and her robot friends

"Good Neighbor"

VERSE 1

All people together, there's no one we're leaving out
Rain or sunny weather, we will love, not put you down

PRE-CHORUS 1

Everybody, different sizes and shapes and moods,
I still love you, it's a party
We're accepting all different schools, I'm here for you

CHORUS

You're the only you and you are different
And you are special, and we're totally neighbors
You are really different and really special
I am totally different (too)
Anytime you fall down I will be your good neighbor (4X) too

VERSE 2

Someone's sick and hurting; do you help, do you walk away?
I feel my program is learning how to care, how to stay.

PRE-CHORUS 2

Everybody, different sizes and shapes and moods,
I still love you, it's a party
We're accepting all different hues, I'm here for you

CHORUS

You're the only you and you are different
And you are special, and we're totally neighbors
You are really different and really special
I am totally different (too)
Anytime you fall down I will be your good neighbor (4X) too
Anytime you fall down I will be your good neighbor (4X) too
